VACCINE CONSENSUS STATEMENT

Holland PHO follows the American Academy of Pediatrics (AAP) and the American Academy of Family Physicians (AAFP) recommended Immunization Schedules for clinical care decisions and patient counseling.

We also comply with CDC/ACIP immunization policies for program participation (e.g., Vaccines for Children), state reporting, and performance measures.

If AAP/AAFP and CDC/ACIP recommendations differ, our clinicians will follow AAP/AAFP guidance for patient care unless a law, payer requirement, or VFC program rule requires adherence to ACIP, in which case we will meet those requirements while continuing to offer AAP/AAFP-recommended care.
